attend the 20th annual meeting of the Mississippi Dental Association at Natchez.

Mr. Simon Favre, of Pearlington, was a caller at the DEMOCRAT-STAR office Saturday. He says the Democracy of old Hancock are not for Stockdale this time. A change is wanted.

Rev. E. T. Breland, pastor of the Scranton Methodist church conducted a protracted meeting at Pascagoula last week which has proved a success. Large congregations were present and manifested great interest in his good work.

A fire bug set fire to the residence of Mr. Henry P. Fagan, near the Telephone road last Sunday night at 9:30. About 10 feet of the front gallery was burned before the fire was discovered, which was promptly extinguished by the occupants.

On Sunday last Vincent Ros, D. D. G. P., W. F. A. Parker, D. D. G. M., Dr. W. A. Cox, representatives of Scranton Encampment No. 32, H. S. Rourke, representative of Scranton Lodge No. 45, left for Columbus to attend the Grand Lodge I. O. O. F. to convene there on Tuesday.

Caesar Burney, an old and faithful colored man, died at his home in Vancleave, Miss., Wednesday April 25, 1894, aged over 100 years. Deceased at one time belonged to the late Col. Robert Burney, who owned a large turpentine orchard. Three persons within a year have died there at the age of 100 years and over.

A surprise party was tendered to Mr. and Mrs. W. M. Cantz by their young Scranton friends last Tuesday evening. Although taken completely by surprise the affable host and hostess soon arranged for the entertainment of their guests. The evening was delightfully passed, and all carried away pleasing remembrances of the occasion.

1894. The purpose of this measurement and report is to show to your Board and the public the amount of work done, cutting down hills and filling valleys, or such work as would not have been done by road overseers and hands under the old system. In this measurement I left out all shovel and spade work, and all work done even with plow and scrapers, unless the dirt was moved over 100 feet. All bridges and special contract work is also not included. I carefully measured the length of all my work, and estimated the width at 21 feet, and depth at 13 feet. I found the total length of cuts and fills to be 5746 yards long, 7 yards wide and one-half yard deep, making a total of 20,111 cubic yards. As I measured both cuts and fills I divided this by two, and find that the earth actually moved to be 10,055 $\frac{1}{2}$  cubic yards, all of which was moved from 100 feet to half a mile, a reasonable pay for which would be 25 cents per cubic yard, or \$2500; and if done in one place would have graded a railroad bed from Moss Point to Scranton and back. The facts of this report I am ready to verify:

M. A. DEES,  
Road and Convict Contractor.  
Moss Point, May 3, 1894.

If you want trade, advertise in the DEMOCRAT-STAR. Keep an advertisement in the paper all the time, setting forth, in plain English, what you have for sale, and those in need of merchandise will give you a call and buy. A hint to the wise, is sufficient.

The following story is told of a Stillwater doctor who attended upon a close-listed son of Erin during a recent illness. Pat called in one day to pay his bill and thinking it a little steep demanded an itemized bill. It was itemized thus: Medicine, 75 cents; four visits, \$12; total, \$12.75. "All right," replied Pat, "here is yer sivity-folive cents, O'll pay back the visits," and he turned on his heel and walked away before the doctor could reply.

Visitor—How did Nettle get the measles?

Small Brother—Oh, I she'd saved up condens. I suppose.

## Greenhead/Lick Skillet

Greenhead/Lick Skillet is the name some old-timers give to the stretch of land along Jim Ramsay Road.

Family stories, land and census records indicate that Greenhead started with five black families from North Carolina, who established homes here after the Civil War and each bought about 160 acres of land.

The Burneys, Paytons, Reeds, Flowers and Chambers were the founding families of Greenhead.

Throughout the generations, the north area has remained a predominantly black community and the descendants of the original families often married their neighbors, intertwining the community by blood and friendships.

In the western portion of the community were the vast landholdings of Thomas Ramsay and his family. The Lockards lived to the east.

As long as anyone can remember, there was never a post office at Greenhead and in all the history of the area, there were only a few stores.

To provide for their families, Greenhead residents farmed. Many of the younger men worked on the large Ramsay farm. <sup>No</sup> ~~DATE~~
